

August 20, 2020

For Immediate Release.

Enviro-Stewards Inc. is proud to have earned the title of Masters Level member with the Regional Sustainability Initiative.

Elmira, Ontario; August 20, 2020 – Enviro-Stewards has been a member of the Regional Sustainability initiative since 2011. Since joining we have committed to reducing our 2008 greenhouse gas emissions (GHGs) by 80%, which we achieved 3 years ahead of schedule.

We are proud to be featured in the [Regional Sustainability Initiative's Masters Level video](#), in which we share about our focus on preventing problems before they happen, our thoughts on Waterloo Region, and the value of being part of a sustainability network. You will hear about how we converted a 100-year old building into a modern, efficient workspace and how we look at our own environmental footprint to lead by example. We apply this same learning and knowledge to our engineering work, which creates an additional positive impact on the region (and beyond).

In addition to achieving a Gold Pledging GHG Target, we are also a Certified B Corporation. We believe in balancing increasing sales while reducing environmental footprints and improving social conditions, which is reflected in our ability to maintain an 83% E-Score in our B Corp certification.

To learn more about our work and our unique approach to contributing to a Green Economy, Bruce Taylor was recently featured on [Dianne Saxe's Podcast Green Economy Heroes](#).

The above press is timely as in 2020 Enviro-Stewards is celebrating its 20th anniversary!

We look forward to contributing to our community, region, and the world through our engineering work and our [Safe Water Project](#) for many years to come.

About Enviro-Stewards:

Enviro-Stewards is an environmental engineering firm that is a [Best for the World](#) classified B Corporation, recipient of Global Compact Canada's [SDG Goal award](#), and the only Canadian company to win a [Global SDG award](#). Its sustainability engineering projects for [Campbell Soup](#), [Southbrook Winery](#), [Andrew Peller](#), [Maple Lodge](#), [Dextran](#), [North York General Hospital](#), and [Tim Hortons](#) each won national awards. The company's President and Founder, Bruce Taylor, also established [the Safe Water Project](#) in South Sudan, which won an international [globe award](#), was featured in [B the change](#) magazine, and was featured in a [TEDx talk](#).
